

A project for my region

Regional
Development

Your team is a part of a group of citizens who want to promote their region. You must present a project that supports regional development. It may involve setting up a business to create jobs, an action plan to improve the environment, creating a service for your community, etc.

Keep in mind that you will present your project to entrepreneurs, ministers or citizens. Be convincing!

- Before choosing the project that you would like to implant among your community, you need to figure out the questions listed below:
 - What natural resources are available?
 - What elements make up the wealth of the community?
 - What are the needs of the population
 - Is there environmental problem that needs to be resolved?
 - Are cultural or sports activities lacking?

1- The Brainstorming phase

- Unleash your imagination
- Don't dismiss your classmates' ideas
- Write everything down

2- Choosing a project

- I. Retain the most promising projects
- II. Try to think about the number of people that it will serve, its feasibility, the resources required
- III. Select the project that gets unanimous support from the group

3- Pros and Cons of the project

- Most of projects have their benefits, but they can also have their disadvantages as well.
- Make a list of the advantages and disadvantages of your project

-Is there anyone that might be against your project

-Why do you think that they would object to such a project?

-Are there environmental impacts?

Planning stage

- List the potential problems
- Find solutions
- Decides what are your priorities
- Decide how you plan to carry out each step

Getting support

What kind of help do you need?

- ✓ Do you need financial support
 - ✓ Do you need technical
- ✓ Prepare a list of people or organizations that could help you implement your project (mayor, environmentalists, elected municipal officials...)

Presentation

Now it is time to present your project to the community. These formats could be useful, which ones are you going to use?

- ❖ PowerPoint
- ❖ Video
- ❖ Photo album
- ❖ Tourist brochure

Individual grades (if applicable)

_____	_____
_____	_____
_____	_____

This project is done in teams of 2 to 3 students. Unusually, this project cannot be done alone. Teamwork is the key to success in this project. Do not forget that a paper version nicely will have to be handed in on the due date. A 10% penalty applied on a daily basis will be the imposed consequence for the latecomers.

Best of luck and have fun!
